

To prevent an injury, follow these Safety Tips on how to Properly Mount and Dismount the Cab:

- Maintain a three-point contact with the cab while climbing. Keep body contact by either placing both feet and one hand or both hands and one foot on the cab.
- Never jump out of the cab. Assure all foot and hand holds are secure and tight on your cab when climbing.
- Never exit with your back to the cab. Always exit by facing the cab.
- Check the ground condition for uneven ground and holes before exiting a cab.
- Do not carry items when climbing. Place items in cab before climbing.
- Do not climb over clutter. Keep cab floors clean and remove all objects.
- Keep set of steps clean on the cab. Carpeted steps should be hazardless.
- Wear proper footwear to avoid slips.

IMPORTANT NOTICE - The information and suggestions presented by Michigan Millers Insurance in this Safety Talks Toolkit Bulletin are for your consideration in your loss prevention efforts. They are not intended to be complete or definitive in identifying all hazards associated with your business, preventing workplace accidents, or complying with any safety related, or other, laws or regulations. You are encouraged to alter them to fit the specific hazards of your business and to have your legal counsel review all of your plans and company policies.
